DEPARTMENT OF ENERGY  
OFFICE OF HEARINGS AND APPEALS

Name of Case: Worker Appeal

Date of Filing: October 22, 2004

Case No.: TIA-0280

XXXXXXXXXXXXXXXXXX (the Applicant) applied to the Department of Energy (DOE) Office of Worker Advocacy (OWA) for assistance in filing for state workers' compensation benefits for her late husband (the Worker). The Worker was a DOE contractor employee at a DOE facility. An independent physician panel (the Physician Panel or the Panel) found that the Applicant did not have an illness related to a toxic exposure at DOE. The OWA accepted the Panel's determination, and the Applicant filed an appeal with the DOE's Office of Hearings and Appeals (OHA). As explained below, we have concluded that the Appeal should be dismissed as moot.

*I. Background*

*A. The Relevant Statute and Regulations*

The Energy Employees Occupational Illness Compensation Program Act of 2000 as amended (the Act) concerns workers involved in various ways with the nation's atomic weapons program. See 42 U.S.C. §§ 7384, 7385. As originally enacted, the Act provided for two programs. Subpart B provided for a Department of Labor (DOL) program providing federal compensation for certain illnesses. See 20 C.F.R. Part 30. Subpart D provided for a DOE assistance program for DOE contractor employees filing for state workers' compensation benefits. Under the DOE program, an independent physician panel assessed whether a claimed illness or death arose out of and in the course of the worker's employment, and exposure to a toxic substance, at a DOE facility. 42 U.S.C. § 7385o(d)(3); 10 C.F.R. Part 852 (the Physician Panel Rule). The OWA was responsible for this program.

The Physician Panel Rule provided for an appeal process. An applicant could appeal a decision by the OWA not to submit an application to a Physician Panel, a negative determination by a Physician Panel that was accepted by the OWA, and a final decision by the OWA not to accept a Physician Panel determination in favor of an applicant. The instant appeal was filed pursuant to that Section. The Applicant sought review of a negative determination by a Physician Panel that was accepted by the OWA. 10 C.F.R. § 852.18(a)(2).

While the Applicant's appeal was pending, Congress repealed Subpart D. Ronald W. Reagan Defense Authorization Act for Fiscal Year 2005, Pub. L. No. 108-375 (October 28, 2004) (the Authorization Act). Congress added a new subpart to the Act, Subpart E, which establishes a DOL workers' compensation program for DOE contractor employees. Under Subpart E, all Subpart D claims will be considered as Subpart E claims. *Id.* § 3681(g). In addition, under Subpart E, an applicant is deemed to have an illness related to a workplace toxic exposure at DOE if the applicant received a positive determination under Subpart B. *Id.* § 3675(a).

During the transition period, in which DOL sets up the Subpart E program, OHA continues to process appeals of negative OWA determinations.

#### *B. Procedural Background*

The Worker was employed as a pipe fitter and plumber technician at the Paducah Gaseous Diffusion Plant (the plant). He worked at the plant for approximately 3 years, from 1951 to 1954.

The Applicant filed a Subpart B application and a Subpart D application, claiming pancreatic cancer, large cell anaplastic carcinoma/lung cancer, small intestine cancer, and liver cancer. DOL issued a positive Subpart B determination for pancreatic cancer. See OWA Record at 39. The OWA forwarded the Subpart B application to the Physician Panel, which issued a negative determination. The Panel indicated that the Worker had pancreatic cancer with metastases. The Panel stated that the Worker "may have had" a second primary cancer of the lung. The Panel discussed the Applicant's exposures and determined that there was insufficient evidence to establish a relationship between the exposures and the claimed illnesses. Accordingly, the Panel rendered a negative determination. See Physician's Panel Report.

The OWA accepted the Physician Panel's determination. The Applicant filed the instant appeal. In her appeal, the Applicant contends that the Panel incorrectly attributed the Worker's pancreatic cancer to his smoking history. See Applicant's Appeal Letter.

## *II. Analysis*

Under the Physician Panel Rule, independent physicians rendered an opinion whether a claimed illness was related to exposure to toxic substances during employment at a DOE facility. The Rule required that the Panel address each claimed illness, make a finding whether that illness was related to toxic exposure at the DOE site, and state the basis for that finding. 10 C.F.R. § 852.12. The Rule required that the Panel's determination be based on "whether it is at least as likely as not that exposure to a toxic substance" at DOE "was a significant factor in aggravating, contributing to or causing the illness." *Id.* § 852.8.

We need not consider the Applicant's argument that the Panel incorrectly attributed the Worker's pancreatic cancer to his smoking history. The Applicant's receipt of a positive DOL Subpart B determination for pancreatic cancer satisfies the Subpart E requirement that the illness be related to a toxic exposure during employment at DOE. Authorization Act § 3675(a). See also *Worker Appeal*, Case No. TIA-0228, 29 DOE ¶ 80,202 (2005). Accordingly, the DOL Subpart B determination has rendered moot the Applicant's argument about the role of smoking in the Applicant's pancreatic cancer.

As the foregoing indicates, the appeal should be dismissed as moot. In compliance with Subpart E, the claim will be transferred to the DOL for review. The DOL is in the process of developing procedures for evaluating and issuing decisions on these claims. OHA's dismissal of this claim does not purport to dispose of or in any way prejudice the DOL's review of the claim under Subpart E.

IT IS THEREFORE ORDERED THAT:

- (1) The Appeal filed in Worker Advocacy, Case No. TIA-0280, be, and hereby is, dismissed.
- (2) This dismissal pertains only to the DOE claim and not to the DOL's review of this claim under Subpart E.

(3) This is a final order of the Department of Energy.

George B. Breznay  
Director  
Office of Hearings and Appeals
